

In **Science** we will be....

Learning about animals, including humans, with a focus on the digestive system , teeth and food chains.

We will also learn about living things and their habitat, understanding how things can be grouped in a variety of ways and using classification to group and name a variety of living things in their local and wider environment.

In **History and Geography** we will be....

Focusing on North America, we will be comparing geographical features, both human and physical with our local area .

We will also be improving our location knowledge, by learning to position a range of places on a map, including the Northern Hemisphere, Southern Hemisphere, Arctic and Antarctic circles and time zones.

In **Art and DT** we will be...

Learning about Andy Warhol and using his work as a basis for our own painting.

In **MFL** this term we will be...

Developing our language skills with a focus on weather and modes of transport. We will have a go at presenting our own forecast in French!

In **Music** this term we will be...

Working on our singing, focusing on songs with two/three part rounds.

We will also be developing our skills at playing by ear, using a range of tuned instruments.

Year Four Spring Term 2017

In **PSHE** this term we are thinking about..

Diversity and how this can have a positive impact on our lives.

In **Computing** this term we will be...

Learning to use Power Point and then produce our own presentation.

We will also be exploring different software such as Isle of Music and Scratch.

In **RE** this term we will be...

Thinking about different churches, we will be visiting local churches and exploring how they are similar and how they are different.

In **PE** we will be...

Improving our netball and gymnastic skills.

In **English** this term we will be looking at fantasy stories and using these as inspiration for our own writing. We will look at a range of poetry and study the work of the author Anne Fine during our guided reading lessons. We will also be learning about report writing.

In **Maths** this term we will be learning about fractions and decimals and the links between them. We will also learn about time and money, as well as keeping on top of what we learned in the Autumn term (additions, subtraction, multiplication and division).
